

Paul and Lisa
Deutsch

PRAY

- For the opening of the new hospital in January 2023. Pray that God would draw people with a heart to grow the hospital and mission.
- That Paul would continue to develop relationships with the hospital staff and the larger community.
- That God continues to watch over Paul and Lisa's children in the U.S. and that their walks with the Lord deepen.
- For rest and health while Paul and Lisa work to share the reality and saving work of the gospel.

About the ministry

The American Mission Hospital in Manama, Bahrain, has been a beacon of care for the community for centuries. The hospital holds the distinction as the first medical facility in the country, and its reach continues today through clinics in the surrounding areas. The trying and joyful moments of medical care offer opportunities to share the gospel in word and deed through a unique Christian-based hospital system in the Middle East.

Paul Deutsch serves the American Mission Hospital by listening to patients and staff, caring for them in stressful times, and providing spiritual encouragement. This role puts him in contact with people from many nations, religions, and cultures. In Paul's conversations and relationships, God's compassion, grace, and love can have a wide reach.
