

Daniel  
**Gillett**

## PRAY

---

- For discernment to come alongside missionaries and their families in helpful ways, integrating well with their current support networks.
- For the ability to listen well and grow in understanding of the special stresses of the mission fields.
- For wisdom and agility in managing this call and other ministry responsibilities, along with time zone differences to be truly available to our missionaries.
- For Dan's ability to manage occasional travel and for traveling mercies on his journeys.

## About the ministry

Serving as a missionary, especially in a culture and a location far from home, can be taxing on your physical, mental, and spiritual health. While missionaries follow God's call to share the gospel in word and deeds, they often lack a solid, regular pastoral support system. If missionaries are taken care of, God's mission will thrive.

Rev. Dr. Daniel Gillett serves as the spiritual care support for all RCA missionaries and mission partners in Europe and the Middle East. He offers consistent spiritual care and encouragement through check-ins with missionaries and provides a safe space to focus on all facets of their health. Daniel also organizes and leads regional gatherings in Europe and the Middle East as well as Bible studies, prayer groups, etc. to foster community and connection.
